Ch 150.1

Mysterious Stone (Part 2)

"What is the Phoenix Coffin?"

Everyone looked at each other and then they looked at Qi Feng Hua. Qi Feng Hua immediately shook his head, how could he know?!

Now was not the time to reveal his identity, so Shang Jun thought about it and explained lightly, "As I said before, the current emperor Long Qu Mu is not the monarch chosen by the previous emperor. The edict of his enthronement was drafted by himself and this Phoenix Coffin is the place where the personal edict was left by the late emperor and where the imperial seal of the country is located."

Did the previous emperor really leave the edict and a jade seal?!

He Shao Hua was the most delighted as he said with a smile, "That's great, with the edict and the jade seal, it will be easy to deal with Long Qu Mu!"

Shu Qing observed Long Yi Hai secretly, as she was comparing his joy and the joy of the others in Prince Rui's mansion. He was unusually calm and was only slightly surprised. Maybe he knew that there was an edict and a jade seal, as he politely asked, "Young Master Qi, where is the Phoenix Coffin?"

Qi Feng Hua shook his head again and replied blankly, "I don't know. Senior Brother only said that one of us can find the place."

Who was it?! Could it be that the legendary master was always talking like this, so vague and mysterious?!

This time, everyone gave up hope on Qi Feng Hua, so Shu Qing asked Shang Jun directly, "Jun, do you know where this Phoenix Coffin is?"

Shang Jun shook his head and sighed, "It is said that the Phoenix Coffin is the place where the divine bird phoenix is reborn and the place where the spiritual energy of heaven and earth gathers. To find its specific location we must use the mysterious stone as the key. Otherwise, even if we find it, we can't enter and go in there." He had been looking for four or five years and he wanted to know more than anyone else. He didn't even know that Master also knew about the Phoenix Coffin.

"What is the mysterious stone?"

"Where can we find the mysterious stone?"

They hadn't figured out the Phoenix Coffin yet and there was actually another mysterious stone?!

"Mysterious stone..." Shu Qing murmured while thinking and when she happened to meet Xiu Zhi's eyes, the two seemed to think of something at the same time and said together, "The exquisite jade!"

The two looked at each other and smiled before Shu Qing said to Yu Feng, "Yu Feng, go and invite Mo Can over."

"Yes."

The only thing she had ever seen that could be called a pair of mysterious stones was the exquisite jade. She was hoping that she was correct.

After a while, a red shadow ran in first, followed by the still arrogant Mo Can.

Walking into the house and upon seeing a group of people, Wei Na whispered, "Why are there so many people?"

Mo Can frowned immediately, but Shu Qing stepped forward at the right time and said with a smile, "Mo Can, can I borrow your exquisite jade?"

He didn't like to be near strangers, so Mo Can wanted to walk away, but Shu Qing had spoken. Even if he was in a very bad mood, Mo Can still took out two pieces of things wrapped in silk from his sleeves, but he just stood there at the door and refused to go in.

Shu Qing wanted to go to pick them up, but the sudden coolness on her wrist made her stop. It was because of this bracelet on her wrist that it allowed her travel to this other world. However, since she had been here for several years, the bracelet was the same as an ordinary bracelet, but every time it met these exquisite jades, the bracelet would respond. Especially this time, the chill that was emanating from the bracelet slightly startled her and the uneasy feeling made her take a step back as she said to Qin Xiu Zhi, "Xiu Zhi, look carefully, do the exquisite jades have any clues?"

"Alright." Qin Xiu Zhi took the two pieces of exquisite jade, gently opened the wrapped silk handkerchief and looked at the top of the jade carefully. Except for the two poems of 'pretty flower', there was nothing else. Qin Xiu Zhi matched up the exquisite jade, lifted them up and let them hang in the air. Everyone looked at it curiously and it became a two fan-shaped exquisite white jade. It was crystal clear, emitting a faint soft light and there was nothing too peculiar about it.

People who had seen the two pieces of exquisite jade together, surrounded by purple light, were all stunned. Why was there no light now?

Wei Na walked around the exquisite jades and wondered, "Why doesn't it light up?! I clearly saw it glowing that night, is it because it's daytime?!"

Qin Xiu Zhi also felt that this was possible and just wanted to put the exquisite jade down, when suddenly, the exquisite jade made a low and shallow sound like a bell. It had been louder at night and the surrounding light seemed to gather on the white jade in an instant. Within it, the two pieces of jade radiated purple light from the inside and the light became brighter and brighter. In the room full of sunlight, this light was still dazzling.
