Ch 150.2

Mysterious Stone (Part 2)

"This...how..." Everyone was so amazed at the beautiful and magical scene in front of them, that they didn't know what to say for a while!

Shu Qing felt that every time the exquisite jade was closed, the cold air flowing from the bracelet on her wrist became stronger. After thinking for a while, Shu Qing said, "Xiu Zhi, try to put them together."

Xiu Zhi nodded and overlapped the two red lines he held in his hand. Following this gesture, the exquisite jade emitted a more brilliant purple light and an increasingly weak sound. But no matter how hard Xiu Zhi tried, the two pieces of jade could not stick together.

He slowly put the exquisite jade down and the brilliant light disappeared instantly, so Xiu Zhi replied helplessly, "Not working. It seems that there is a force that prevents me from controlling them."

"Give it to me." Mo Can said coldly.

Xiu Zhi handed the exquisite jade back to Mo Can, and just like Xiu Zhi, Mo Can also positioned the exquisite jade. Everything seemed to be the same as before, and Mo Can also felt the invisible power that Xiu Zhi mentioned. After a few tries, Mo Can could not succeed either, so he held the cotton thread in one hand and grabbed two pieces of the exquisite jade in the other hand, trying to overlap them. Slowly tightening his hands, Mo Can felt the repelling force between the two pieces of jade as he lifted his breath in his chest. Mo Can refused to give up and twisted the piece of jade even harder. He used quite a lot of strong power, so the whispering sound became stronger and stronger until it was a bit loud. Suddenly, an extremely dazzling white light flashed from between the two pieces of jade, causing everyone to be dazzled.

Mo Can was shocked by a force that made his palms numb and his chest felt tight.

The bracelet on Shu Qing's hand also trembled violently along with the light. Although it was only for a moment, it still frightened Shu Qing. Xuanyuan Yi, who had been holding Shu Qing to his side, felt Shu Qing's body shake and asked, "Qing Er, what's wrong with you?!"

When she came back to her senses, the light had passed and the bracelet was safe and sound, so Shu Qing shook her head lightly and replied while seemingly in a trance, "I'm fine."

After the strong light passed on, the two pieces of jade were still separated from each other. Mo Can was overwhelmed by the force and a mouthful of thick blood overflowed from his lips. Wei Na quickly took out a silk handkerchief, wiped it for him and anxiously said, "Mo Can, are you alright?"

Mo Can gently pushed Wei Na's hand, wiped off the blood stains on his lips with the back of his hand and put the exquisite jades on the table; he had no ability to unite them together.

Staring at the two extremely ordinary jade pieces without any brilliance, Wei Na whispered, "How could this be?!" She couldn't understand and the people present didn't understand either. Just when everyone didn't know what to do, Shu Qing suddenly stepped forward and walked towards the exquisite jade.

Gently lifting the cotton thread, the exquisite jade uttered a low and shallow tune again and the beautiful purple light was shining and looked very stunning.

However, her actions frightened Xuanyuan Yi, so he walked beside Shu Qing and roared, "Qing Er, put it down now!"

Shang Jun who was lying on the bed was also shocked and quickly persuaded, "Qing, it's too dangerous, don't take risks."

Shu Qing smiled lightly and replied, "Don't worry, I won't force it." Mo Can was attacked just now, entirely because he was forcing the exquisite jade, and she felt that there must be something between her bracelet and the exquisite jade, so she wondered what would be the link?

Xuanyuan Yi wanted to say something, but Shu Qing had already stretched out her hand and gently stroked the exquisite jade with the hand with the bracelet. Xuanyuan Yi was startled and quickly supported Shu Qing's shoulder, fearing that she would be hurt by the exquisite jade's strength as the white light was too dazzling.

But.....

There was no sharp sound, no dazzling white light and Shu Qing was still standing there peacefully, while the exquisite jade in her hands had already obediently overlapped.

The low and shallow whisper disappeared and the purple light gradually expanded, forming a faint light radiance in front of Shu Qing, which was very beautiful.

Wei Na's eyes widened and she cried out in disbelief, "Why can she do it without any effort?!"

Just as everyone looked at each other, Shu Qing felt the purple bracelet on her wrist was no longer cold, but faintly hot. As the bracelet changed in temperature, a blurred image appeared on the purple radiance in front of her. It was not obvious at first, but as the temperature of the bracelet gradually increased, the picture became clearer.

Shu Qing knew the principle of joining in a long time ago, so she didn't think there was anything particularly strange. But the people in the room had never seen such a thing before and they were all staring at the picture that appeared out of thin air and were amazed by it.

The image became clearer and clearer, as if it was a mountain. After a while, everyone finally came back to their senses and began to think about where the mountain on the screen was.

"Here it is....."
